## // education

East Carolina  
University  
  
August 2011 to  
December 2014  
  
Bachelor of  
Science in  
Interior Design

## profile

I'm a North Carolina native, animal lover, and artist in my spare time. I strive to create spaces that are not only pleasing to the eye, but that are functional for the long haul. With seven years of experience under my belt, I have worked on projects in just about every sector but I am always primed to learn and grow as a designer.

## work experience

Interior Designer  
*MHAworks // March 2019 to Present*

I have been lucky enough to work on a wide variety of projects in my time at MHA, from offices to labs, bars to multi-family, I am a "Jill" of all trades! I have taken the lead in the production of construction documents, finish and lighting selection, and client presentations. I have also had opportunities to create project renderings and get involved in construction administration.

Interior Designer  
*HagerSmith Design // October 2015 to July 2018*

I worked primarily on leased office spaces, carrying each project from programming through construction documents. I developed a love of space planning and the ability to work on all aspects of a project independently.

Interior Design Intern  
*HH Architecture // May 2014 to August 2014*

I spent my summer internship assisting in research, visiting job sites, and as any good intern does: updating the resource library top to bottom.
